Faulkner and Van Buren County Sobriety Courts operate within the treatment framework recommended by the National Association of Drug Court Professionals for the treatment of high risk/high need repeat violators of A.C.A.

5-65-103, Boating or Driving While Intoxicated, an Unclassified Misdemeanor (typically Second or subsequent offenders, or First Offense DWI Offenders with a very high blood alcohol result at the time of arrest.). Sobriety Court uses a stakeholder-team approach to treatment and supervision. Persons who screen into the program are evaluated for pre-plea supervision for a period of three months. During this time the participants begin treatment and are habituated to the lifestyle supervision provided by our probation officers. Once pled into the program, the participants will make progress through the four phases of the program. Maximum supervision and counselling occur beginning at plea. Both of these forms of supervision are reduced to some degree as participants phase up. By the time a participant has reached Phase Four, supervision and counselling are minimal with the goal of preparing the participant to reenter society without treatment support from the program, or with appropriate therapeutic treatment sought out by the individual.

Sanctions and rewards are utilized to punish or modify bad behavior or reward correct choices. Hefty doses of community service are required of the participant in exchange for graduation and mitigation of the fines and jail time associated with the standard sentences for DWI offenses in this judicial district. Staffings occur immediately before the Sobriety Court Participants appear before the judge. Frequent updates of important issues are shared by treatment or probation between court appearances with the rest of the team, if something needs immediate attention.

Treatment is focused on both individual and group settings, with additional treatment options considered and ordered if necessary to aid the participant in leading a law abiding lifestyle (i.e., Alcoholics Anonymous, Narcotics Anonymous, Harbor House, etc). Sanctions range from writing a paper on a topic relating to a violation, extra community service, up to jail sanctions. Typical jail sanctions are 48 hours or less, occasionally rising to 96 hours if merited. Continued lack of adherence by a participant to a treatment regime will result in the removal of the participant from the program and individualized sentencing on the original charges.

- b. Statutory or legal authority on which it is based: A.C.A. 16-10-139
- c. Both judges certify the courts compliance with all applicable sentencing laws, including assessment, collection and remittance of fines, fees, court costs, probation fees as indicated by our signatures below.
- d. Use of court resources. Each member of the treatment team was consulted in setting up the program and its operation; scheduling has been coordinated; and the necessary resources are available. The Team consists of Conway Counselling and Wellness (CCW) for mental and medical treatments. CCW utilized board certified therapist, and psychiatric physician supervision of medical issues. As noted above, CCW handles both individual and group counselling for participants. For participants with insurance issues, interns acting under the
